

IP120 Z ISO

Intermediate insulation for supplementing the insulation joint without a structural function

IP120 Z ISO intermediate insulation does not have a structural function but instead supplements the insulation joint in various installation situations. The element is 1000 mm long. Short elements are available on request. IP120 Z ISO is available for fire protection structures up to REI 120. Please specify the load-bearing capacity, element height and fire protection version when ordering.

AbZ General building approval: Z-15.7-331
