

ARB

Non-slip tape

ARB non-slip tape is stuck on top of the floor duct side bars. This significantly reduces the risk of slipping between the walk-on covers and the floor ducts. The non-slip tape comes on a roll, is highly compressible and is made of ethylene-propylene rubber with adhesive on one side. It is 8 mm wide and 10 m long.

Artikel	Typ	t	W
ARB 2X8	Anti-slip tape,	2.00 mm	0.022 kg
