

## AVSKP

### Beam clamp for mounting channels

The beam clamp AVSKP is used to attach mounting channels (A 41, KHA 41, KHAR 41, KHAL 41, KHA 42) to horizontal steel beams. The maximum flange thickness of the steel beam to be fastened is 22 mm.

The beam clamp is made of hot-dip galvanised steel. The screw is included in the scope of delivery.
