

BKD-S

Floor channel lid hinge

The BKD-S floor channel lid hinge connects the BKD-RHP lid to the floor channel. In this way, the lid can be easily opened. The hinge fits the pre-stamped knock-out slugs in the BK and BKD-RHP. The slugs must be knocked out and the hinge screwed in place at the freely selectable fastening distance using the KLR clamp fastening set. KLR must be ordered separately.
