

BKKDR-WZB AL

Floor duct crossing cover made of aluminium diamond plate

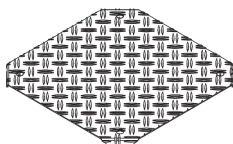

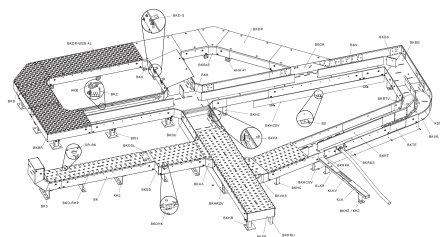

The BKKDR-WZB AL floor duct crossing cover is placed on top of the floor duct crossing BKK and protects cables and supply lines from flying sparks and other mechanical influences. It is 100 to 600 mm wide corresponding to the crossing. The floor duct crossing cover is made of aluminium diamond plate with slip resistance class R10. With a maximum compartment size of 200 mm, we guarantee a tested load capacity of 3.00 kN according to EN 50085-2-2. They come with pre-assembled turning bolts.
