

BODO NA

Cable outlet, dummy

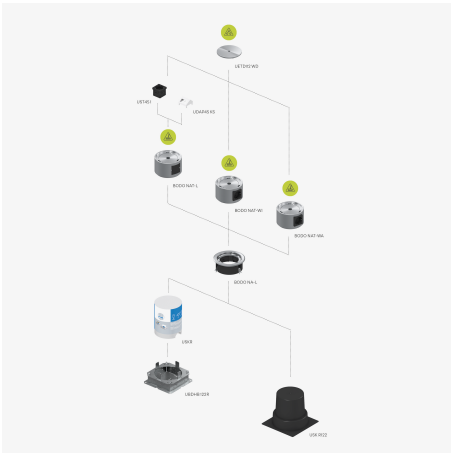

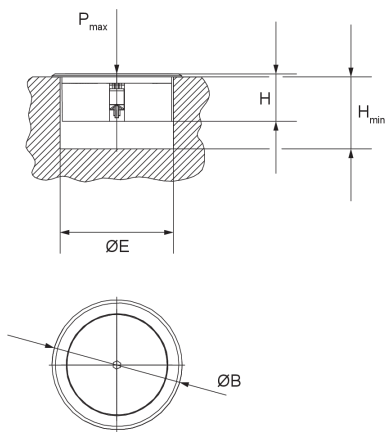

BODO NA components are round dummy cable outlets with floor covering protection frame and cover that can be closed using a bayonet catch. The BODO NA components can be supplemented with a tube outlet and are suitable for installation in screed and raised or false floor openings in wet-cleaned or dry-cleaned rooms with high traffic loads. The cover of the cable outlets is made of aluminium with an aluminium finish and the frames are made of plastic. The IP protection rating of the outlets is IP 66 in an unused condition and IP 20 when used. They have installation dimensions of 122 mm and a minimum installation height of 87 mm.
