

## GK

### Slide sleeve

The sliding sleeve GK is a necessary accessory for the shear dowel HED-S in the stainless steel version. Using the sleeve eliminates the need for drilling through the formwork or subsequent concrete drilling. The cost-saving sliding sleeve GK is made of plastic and enables the dowel to move longitudinally in the sliding sleeve. It is available in lengths of up to 320 mm for different diameters.

| Artikel      | Typ                  | L      | D     | W        |
|--------------|----------------------|--------|-------|----------|
| 550500004970 | Gleithülse GK 20     | 160 mm | 20 mm | 0.057 kg |
| 550500004971 | Gleithülse GK 20 500 | 265 mm | 20 mm | 0.060 kg |
| 550500004973 | Gleithülse GK 22     | 160 mm | 22 mm | 0.040 kg |
| 550500004974 | Gleithülse GK 22 500 | 265 mm | 22 mm | 0.065 kg |
| 550500004976 | Gleithülse GK 25     | 160 mm | 25 mm | 0.036 kg |
| 550500004977 | Gleithülse GK 25 500 | 265 mm | 25 mm | 0.085 kg |
| 550500004979 | Gleithülse GK 30     | 185 mm | 30 mm | 0.055 kg |
| 550500004980 | Gleithülse GK 30 500 | 265 mm | 30 mm | 0.090 kg |
