

ISOPRO® IPQ

ISOPRO® IPQ is a thermally insulated slab connection with an 80 mm insulating body for transmitting shear forces in supported reinforced concrete components. The stainless steel rebar is resistant to corrosion. The thrust bearing is made of special concrete. It complies with fire protection requirements: ISOPRO® IPQ is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, element height and fire protection version when ordering.
