

ISOPRO® IPZQ

ISOPRO® IPZQ is a thermally insulated slab connection with an 80 mm insulating body for transmitting shear forces in supported reinforced concrete components. The stainless steel rebar is resistant to corrosion. For the purpose of tension-free support, this item does not have a pressure component. It complies with fire protection requirements: ISOPRO® IPZQ is available for fire protection structures up to REI 90. Please specify the load-bearing capacity, element height and fire protection version when ordering.
