

JVAeco+ E

The brickwork support bracket JVAeco+ E has general building authority approval and is available in the standard cantilever lengths of 130 or 150 to 390 mm and in several load levels. The JVAeco+ E can be adjusted vertically by ± 30 mm and perfectly aligned using the teeth in the bracket head and a slanted slit plate. The anchor channel can be horizontally adjusted. This allows structural tolerances to be perfectly compensated. The JVAeco+ E is made of stainless steel Lean Duplex in corrosion resistance class III. This ensures maintenance-free use.

Article	Type	H	B	L	N	G
JVAECO+290 E/7.0	JORDAHL Brickwork Support Bracket	360 mm	140 mm	290 mm	+/- 30 mm	3.339 kg
