

KLUGS

Clamping fasteners, universal, welded, vertical

The welded clamp fastener KLUGS is used to fasten mesh cable trays and cable trays on vertical steel beams. The tightening torque to be used is 10 Nm. The clamping range extends from 5 - 33 mm. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

Artikel	Typ	H	B	L1	L2	t	M	k	W
KLUGS 10F	Wire-mesh cable tray coupler	52 mm	40 mm	163 mm	113 mm	6.00 mm	10 Nm	3 - 31 mm	0.465 kg
KLUGS 20F	Wire-mesh cable tray coupler	52 mm	40 mm	268 mm	218 mm	6.00 mm	10 Nm	3 - 31 mm	0.643 kg
KLUGS 30F	Wire-mesh cable tray coupler	52 mm	40 mm	373 mm	323 mm	6.00 mm	10 Nm	3 - 31 mm	0.820 kg

Artikel	Typ	H	B	L1	L2	t	M	k	W
KLUGS 10E	Wire-mesh cable tray coupler	52 mm	40 mm	163 mm	113 mm	6.00 mm	10 Nm	3 - 31 mm	0.440 kg
KLUGS 20E	Wire-mesh cable tray coupler	52 mm	40 mm	268 mm	218 mm	6.00 mm	10 Nm	3 - 31 mm	0.610 kg
KLUGS 30E	Wire-mesh cable tray coupler	52 mm	40 mm	373 mm	323 mm	6.00 mm	10 Nm	3 - 31 mm	0.778 kg
