

KUNEX® A

Construction joint tape, PVC-P, internal

Internal KUNEX® PVC-P construction joint tape reliably seals joints in concrete structures. It is installed in the centre of the concrete cross-section. The construction joint tapes are available according to DIN or with abP (German building code test certificate) in accordance with the factory standard. DIN joint tapes are available in bitumen-compatible versions on request. Joint tapes up to 320 mm wide with fixing eyelets on one or both sides can be supplied on request. The eyelets are spaced 200 mm apart. The eyelets replace the joint tape clips that would otherwise be required to fix the joint tapes in place.

AbP

Artikel	Typ	Height anchor rib	Band width	Width expansion element	Thickness expansion element	W
120100002634	Kunex A100	8 mm	100 mm	47 mm	2 mm	0.370 kg
