

LGVV 60

Cable ladder connector, vertical, height = 60 mm

To create vertical changes of direction, LGVV 60 vertical connectors are pushed onto the rails of the cable ladder and bolted in place according to the installation instructions. The connectors can be adjusted to the required angle. The connecting rack is then mounted using the connectors. The connector LGVV 60 is 60 mm high corresponding to the cable ladder and 270 mm long. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.
