

RA 35

Cable tray branch, height=35 mm

The cable tray branch RA 35 allows the direction of cable routing to be changed horizontally in the form of a branch. It is inserted between two cable trays and enables the connection of another cable tray at right angles. The cable tray branch is suitable for cable trays with sides 35 mm high. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.
