

RDS

Cable tray cover, heavy

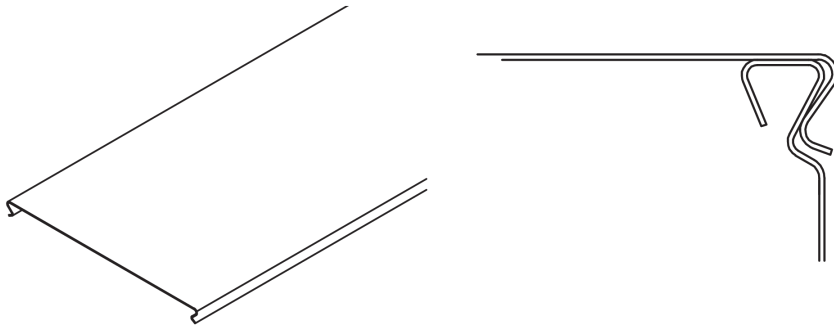

The cable tray covers RDS are suitable for all heavy-duty cable trays and protect them from dirt and moisture. They snap into place and interlock with the side rails. If the covers are to be used outdoors, additional securing brackets to protect against wind are required. The cover is 50 to 600 mm side corresponding to the channel and has a standard length of 3000 mm. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.

Artikel	Typ	B	L	t	W
RDS 05S	Cable tray cover	50 mm	3000 mm	1.50 mm	3.030 kg
