

RID

Cable installation tray cover

The installation cable tray covers RID are suitable for installation cable trays and protect them from dirt and moisture. They snap into place and interlock with the side rails. If the covers are to be used outdoors, additional securing brackets to protect against wind are required. The cover is 50 to 300 mm wide corresponding to the channel and has a standard length of 3000 mm. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.

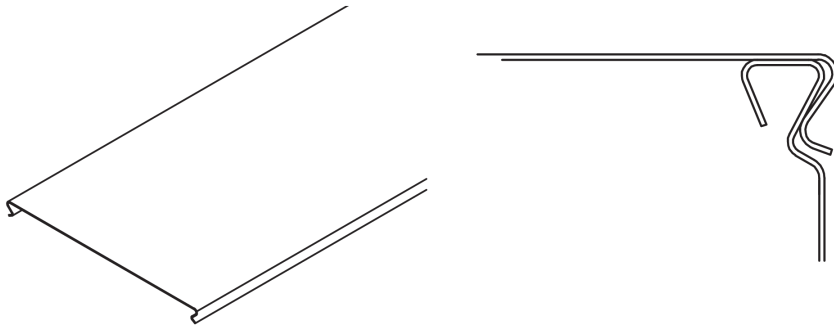

Artikel	Typ	B	L	t	W
RID 05S	Cable installation tray cover RID 05S	56 mm	3000 mm	0.75 mm	1.520 kg
