

RKDR

Cable tray crossing cover with turning bolts

The cable tray crossing covers RKDR are suitable for RK cable tray crossings and protect them from dirt and moisture. They snap into place and interlock with the side rails and also have turning bolts for additional attachment. If the covers are to be used outdoors, additional securing brackets to protect against wind are required. In this case, the twist lock alone is not sufficient as a retaining element. We provide components in various materials and surface finishes to ensure that the corrosion requirements are met for all sorts of applications.

Artikel	Typ	B	W
RKDR 10S	Cable tray cross-piece cover with bar	106 mm	0.340 kg
RKDR 20S	Cable tray cross-piece cover with bar	206 mm	0.650 kg
