

Shear Connector

For KUNEX® clamp joint

Shear Connector types M12, M16 and M20 are used to bond the anchor rods with the existing building. The clamp joint is fixed to the existing building using this shear connector system.

Artikel	Typ	Bohrlochdurchmesser	W
121000002913	Kunex V Anker 12	14 mm	0.020 kg
121000002914	Kunex V Anker 16	18 mm	0.040 kg
