

SRI 60

Protection cap

The protective caps SRI 60 made of polyethylene are suitable for RI installation cable trays with covers and protect the cable tray ends. The protective cap is provided with separation points for easier dividing. For trays 50 mm wide, remove the middle part of the protective cap. For trays from 150 to 300 mm wide, divide the protective cap and add extensions SRI-EO and SRI-EU (included accessories).

Artikel	Typ	W
