

STUS 50

Rung

The rungs STUS 50 can also be attached to the vertical ladder afterwards. They can be bolted to the side rails from the inside using BL 6 corner angles. They are suitable for STU 50-3E vertical ladders and are 200 to 1200 mm wide corresponding to the vertical ladder width. They are made of stainless steel. It is not possible to install additional STUS rungs for the vertical ladder variant with SNA nail anchors.
