

UA 1

Cover plate for 1x UDAE

DIN

UA 1 components from the underfloor systems range are square cover plates with a square opening. As a system-related accessory, the one-piece plates can be snapped onto UG mounting boxes and are used to install an installation device with a suspension bracket. The installation boards are made of high-quality ABS copolymer (ABS) in graphite black (RAL 9011). They have a matt surface and an installation dimension of E 48 mm.
