

UAM 2

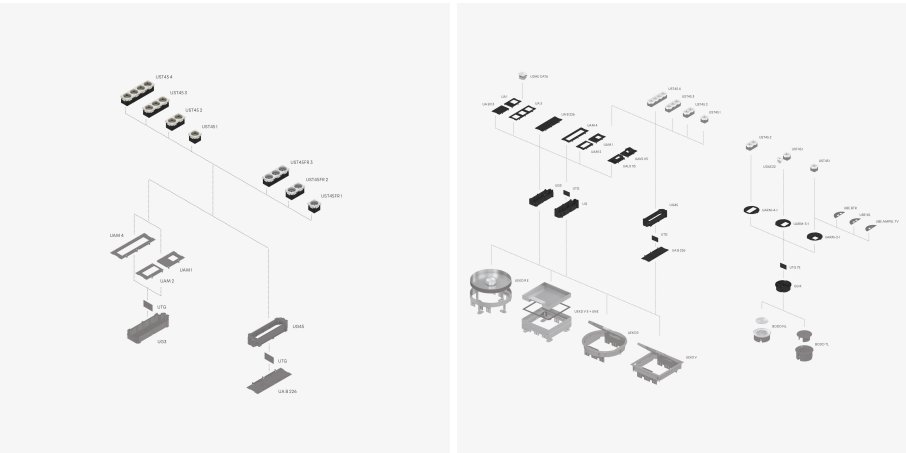

Cover plate for 2x UST45

UAM 2 components from the underfloor system range are rectangular cover plates with a rectangular opening. As system-related accessories, the one-piece plates can be snapped onto UG mounting boxes and used for screwless installation of a 45x45 mm two-way installation device. The installation boards are made of high-quality ABS copolymer (ABS) in graphite black (RAL 9011). They have a matt surface and the installation dimensions of E 41 mm.
