

UBDHB-Z

Earthing clamp

UBDHB-Z components are earthing clamps for the professional installation of screed-covered underfloor ducts. They are used as spare parts - for example in UBDHB false floor sockets, UNE levelling units or UKDA cable duct assembly covers. The clamps are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346.

Article	Type	G
UBDHB-Z	Grounding clamp,	0.020 kg
