

UBEBBS

Fastening set for fire-resistant partition, CHALI

The UBEBBS fastening set for CHALI fire protection bulkheads is a mounting component for screed-flush brush ducts. This product consists of a cross-beam that is used to attach the fire bulkheads to the underfloor ducts. These support elements are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346 and are 160 mm wide.
