

UBKPR

Side profiles

UBKPR products are side profiles for screed-flush duct systems. These components are used for mounting on heavy-duty duct bases and for supporting dummy covers. A strip of rubber creates a reliable seal between the assembly parts. The height-adjustable side profiles are made of hot-dip galvanised steel in accordance with DIN EN ISO 1461. They are supplied with screed anchors, five round-head bolts with square FRS 8X25, five nuts with flange SEMS 8 and a UBKPRV connector.

Artikel	Typ	H	B	B2	L	W
UBKPR10F	side profile D=10mm, L=3000mm,	60 mm	50 mm	30 mm	3000 mm	18.032 kg
UBKPR5F	side profile D=5mm, L=3000mm,	45 mm	40 mm	24 mm	3000 mm	11.642 kg
UBKPR8F	side profile D=7mm, L=3000mm,	57 mm	50 mm	30 mm	3000 mm	14.712 kg
