

UE

End piece

The UE component is an end piece when installing screed-covered underfloor duct. By bending at the perforated line on the component, the end pieces can be pushed into the duct ends to form a secure seal. They are designed to fit ducts 190, 250 and 350 mm wide. The end pieces are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346.

Artikel	Typ	H	B	W
UE 28-350S	end piece UE 28-350S, H=28mm, for ducts	26 mm	347 mm	0.088 kg
UE 38-350S	end piece UE 38-350S, H=38mm, for ducts	36 mm	347 mm	0.126 kg
UE 48-350S	end piece UE 48-350S, H=48mm, for ducts	46 mm	347 mm	0.152 kg
