

UEBDME R

Cover insert, stainless steel tube outlet box, 3x, round

UEBDME R components are round cover inserts. These accessories are used as filling pieces to reduce the floor covering insertion depth in stainless steel tube outlet cartridges, which can be equipped with up to three mounting boxes. The white cover inserts from the range of installation units for underfloor systems are made from high-quality polyvinyl chloride hard foam. They are 297 mm in diameter and are made from material 6.0 mm thick.
