

UEBSMA

Mounting kit T branch

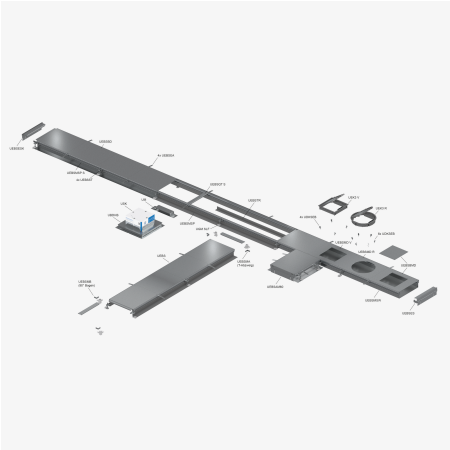

UEBSMA components are T-branch mounting kits. To install the screed-flush duct systems, the duct is connected using the T-branch installation set and then bolted together using the corner connectors supplied. Two T-branch installation sets are required to create an crossing. For the final assembly of the T-branch, transverse cross-beams are inserted to give additional support to the cover joints. The components of the sets are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346 and include the transverse cross-beams with countersunk sheet metal bolts and corner connectors with button head screws.

Artikel	Typ	W
UEBSMA 20S	installation set T-junction,	0.339 kg
UEBSMA 30S	installation set T-junction,	0.448 kg
UEBSMA 40S	installation set T-junction,	1.047 kg
UEBSMA 50S	installation set T-junction,	1.293 kg
