

UEBSMB

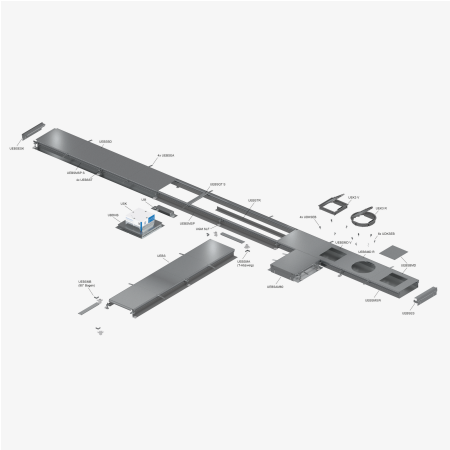

Mounting kit 90° bend

UEBSMB products are 90° bend installation kits. To install the screed-flush duct systems, the duct sections are pushed together and connected using the bend installation sets and then bolted together using the corner connectors supplied. For the final assembly of the 90° bend, transverse cross-beams are inserted to additionally support the cover joints. The components of the sets are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346. They come with the following additional components: transverse cross-beam with countersunk sheet metal bolts, corner connector plate and corner connectors with button head screws.

Artikel	Typ	W	W
UEBSMB 20S	installation set 90°-bend,	90°	0.355 kg
UEBSMB 30S	installation set 90°-bend,	90°	0.464 kg
UEBSMB 40S	installation set 90°-bend,	90°	1.063 kg
UEBSMB 50S	installation set 90°-bend,	90°	1.309 kg
