
UEBSTR

Separating strip

UEBSTR components are separating strips for screed-flush duct systems. They are bolted into the ducts where they safely separate the power cables from the other built-in elements such as data carriers or mounting boxes. The products are made of polyamide and are 2000 mm long.

VDE tested according to: DIN EN 50085-2-2

CE-Zeichen (Conformité Européenne): Ja

VDE-zertifiziert: Ja
