

UGD 10

Rubber seal

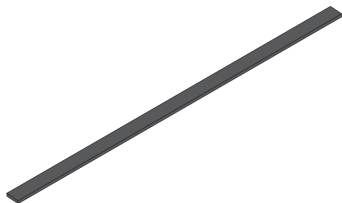

UGD 10 is a self-adhesive rubber strip. It is an accessory for the screed-flush duct systems that is used to securely seal the duct bases or the fitted covers. The product is made of hard-wearing rubber and is available as 10000 mm long roll. The component complies with DIN EN 50085 - the European standard for electrical installation duct systems, and is tested and certified by VDE.
