

UGKD1-2 V 2

Rubber seal, square

UGKD1-2 V 2 components are square rubber seals. These accessories from the underfloor systems range can be bonded into compact units on one side using a self-adhesive coating. They decouple impact sound and protect against unwanted environmental influences such as dirt, moisture or dust. The seals are made of high-quality rubber. They are made from material 2 mm thick and are 119 mm across.
