

UKS

Phillips screw

UKS components are Phillips screws. Various components from the underfloor system range can be securely connected to each other using these accessories. Suitable screwdrivers centre themselves quickly in the cross shaped slots of the screws. They are made of sendzimir hot-dip galvanised steel and are 50 mm long and 4 mm in diameter. The stainless steel (V2A) versions of these accessories are 16 mm long and 4 mm in diameter.
