

# UKTR

Separating strip

The product solution UKTR is a separating strip for screed-covered duct systems. Depending on the width of the duct, one or two of these construction elements must be fixed to the raw concrete slab using a dowel - always symmetrically and offset to the duct. The separating strips are made of sendzimir hot-dip galvanised sheet steel in accordance with DIN EN 10346. They are 3000 mm long and available in various heights.

| Artikel   | Typ                     | H      | L       | W        |
|-----------|-------------------------|--------|---------|----------|
| UKTR 110S | barrier strip UKTR 110S | 110 mm | 3000 mm | 6.600 kg |
| UKTR 35S  | barrier strip UKTR 35S  | 35 mm  | 3000 mm | 1.171 kg |
| UKTR 60S  | barrier strip UKTR 60S  | 60 mm  | 3000 mm | 4.200 kg |
| UKTR 85S  | barrier strip UKTR 85S  | 85 mm  | 3000 mm | 2.037 kg |
