

UVABUWI

Plug-to-socket connecting line, Wieland

UVABUWI components are prefabricated Wieland connection cables with plug, socket and a 3-pole input and output. The connection cables are selected according to colour (black: normal mains, white: IT network) and length and their socket part is then inserted into the snap-in plugs of the pre-assembled mounting boxes. The cables correspond to type H05 VV-F with a cable cross-section of 2.5 mm² and a mains voltage/current of 250 V/16 A.

Artikel	Typ	Ausgang	Eingang	colour	KQ	W
