

WLA 200

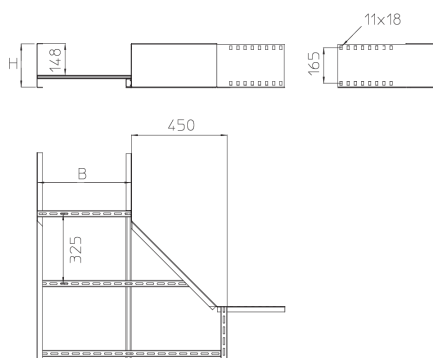

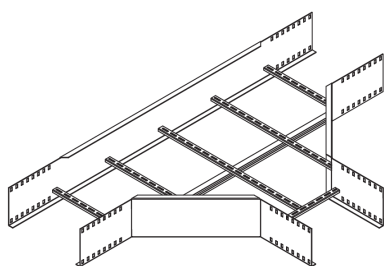

Wide-span cable ladder branch, height = 208 mm

The T-shaped wide-span cable ladder branch WLA 200 with integrated connectors allows the direction of the cable routing to be changed in the form of a branch. It is suitable for WL 200 wide-span cable ladders and from 200 to 600 mm wide. The wide-span cable ladder branch is inserted between two WL 200 wide-span cable ladders. The connecting rack can then be pushed in. It is made of hot-dip galvanised steel.
