

WLRA 200

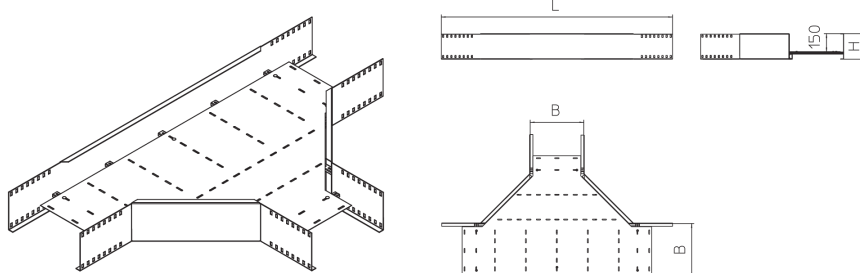

Wide-span cable tray branch, height = 208 mm

The T-shaped wide-span cable tray branch WLRA 200 with integrated side connectors allows the direction of cable routing to be changed in the form of a branch. They are suitable for WLR 200 wide-span cable trays and are from 200 to 600 mm wide. It is used between two wide-span cable trays. The connection tray can then be pushed in with a VB floor connector. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

Artikel	Typ	H	B	L	W
WLRA 200-20F	Tee-branch WLA 200-20F	208 mm	237 mm	1667 mm	26.666 kg
