

WPFD

Wide-span riser cover

The wide-span riser cover WPFD is suitable for WPLF wide-span risers and protects them from dirt, moisture and UV radiation. It is placed on top of the riser and secured with WPFDK formed part cover clips. It can be elevated on request. The cover has a radius of 450 mm corresponding to the riser. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.
