

WPTRV 120

Wide-span cable tray separating strip, flexible, height = 80 mm

Cables and wires with different functions or voltages can be routed separately from one another by using the variable wide-span separating strip WPTRV 120. The separating strip is separated into segments. This makes it flexible and ideal for being installed in formed parts. Mounting bolts are included. The wide-span separating strip is 80 mm high and 1000 mm long. We provide components in various materials and surface finishes to ensure that various corrosion protection requirements for different areas of application are met.

Artikel	Typ	H	L	t	W
