

WTRV 200

Wide-span cable tray separating strip, flexible, height = 100 mm

Cables and wires with different functions or voltages can be routed separately from one another by using the variable wide-span separating strip WTRV 200. The separating strip is separated into segments. This makes it flexible and ideal for being installed in formed parts. Mounting bolts are included. The wide-span separating strip WTRV 200 is suitable for wide-span cable trays with rails 200 mm high. It is 100 mm high and 1000 mm long and is made of sendzimir hot-dip galvanised steel.
