

AH-FBA

Spacers made of fibre-reinforced concrete for use in pre-cast slabs

The product range of punching shear and shear force reinforcements includes the matching AH-FBA fibre-reinforced concrete spacers. These accessories are used in conjunction with the JDA-FT-KL. They are attached to the JDA elements in such a way that they create the required clearances to formwork and between the reinforcement layers. The spacers are made of fibre-concrete and are available in four different versions - for concrete covers of 15, 20, 25 and 30 mm.

Products	H	B	L	W
FBA20	35 mm	54 mm	10 mm	0,039 kg
FBA25	40 mm	54 mm	15 mm	0,044 kg
FBA30	45 mm	54 mm	15 mm	0,049 kg
