

## BKBDR

### Floor duct cover with turning bolts

The floor duct bend cover BKBDR is placed on top of the BKB floor duct bend and protects cables and supply lines from flying sparks and other mechanical influences. It is 100 to 600 mm wide corresponding to the bend. The floor duct bend cover is made of sendzimir hot-dip galvanized steel and is not embossed. With a maximum compartment size of 200 mm, we guarantee a tested load capacity of 5.00 kN according to EN 50085-2-2. They come with pre-assembled turning bolts.
