

BKEB 110

Floor duct end plate, height = 110 mm

The floor duct end plate BKEB 110 is pushed into the floor duct and bolted to the two connection straps. It forms the flush end of a floor duct and serves as a stop edge for covers. It can also be used for mounting a reducer. The BKEB 110 floor duct end plate is 100 to 600 mm wide corresponding to the floor duct, 110 mm high and is made of sendzimir hot-dip galvanized steel.

steel, continuously hot galvanized/Sendzimir process
