

BKRKK 110

Floor duct reducer, height = 105 mm

The floor duct reducer BKRKK 110 enables a small duct to be connected to a floor duct. It is 105 mm high and is made of sendzimir hot-dip galvanized steel. The side rail of the floor duct is cut out where the small duct is to be attached. The floor duct reducer is then bolted to the cut-out and the small duct is pushed onto the lugs of the reducer.

steel, continuously hot galvanized/Sendzimir process
