

BKSDR-RHP

Floor duct riser cover with anti-slip embossing

The BKSDR-RHP floor duct riser cover is placed on top of the BKS floor duct riser and protects cables and supply lines from flying sparks and other mechanical effects. It is 100 to 600 mm wide corresponding to the riser. The floor duct riser cover is made of sendzimir hot-dip galvanized steel with slip resistance class R12. With a maximum compartment size of 200 mm, we guarantee a tested load capacity of 5.00 kN according to EN 50085-2-2. They come with pre-assembled turning bolts.
