

BKSDR

Floor duct riser cover with turning bolts

The BKSDR floor duct riser cover is placed on top of the BKS floor duct riser and protects cables and supply lines from flying sparks and other mechanical effects. It is 100 to 600 mm wide corresponding to the riser. The floor duct riser cover is made of sendzimir hot-dip galvanised steel and is not embossed. With a maximum compartment size of 200 mm, we guarantee a tested load capacity of 5.00 kN according to EN 50085-2-2. They come with pre-assembled turning bolts.
