

## BODO N4

Single outlet with two floor sockets, wet-clean, round

The BODO N4 components are round single outlets with a floor covering protection. They are equipped with a swivelling tube as a cable outlet, a cover, a mounting box with a strain relief device and two Schuko sockets. The single outlets are suitable for dry-cleaned and wet-cleaned rooms with high traffic loads and can be installed in screed and raised or false floor openings. The tube with cover and tube holder is made of aluminium, brass or stainless steel, material no. 1.4301 (V2A). The frame and the mounting box are made of plastic. The single outlets are available in different sizes depending on the material.
