

## Drunterfix without cutout

Spacers for large reinforcement layers

Drunterfix without cutout linear surface spacers are used on horizontal reinforcements and are especially suitable for use on soft substrates such as insulation boards. The spacers are made of high-quality plastic, are approx. 2000 mm long and require a concrete cover of 15 to 50 mm.

Products		weight
630700005257	Drunterfix o A 15	0,145 kg
630700005258	Drunterfix o A 20	0,166 kg
630700005259	Drunterfix o A 25 / 4200	0,190 kg
630700005260	Drunterfix o A 30 / 3600	0,203 kg
630700005261	Drunterfix o A 35 / 2880	0,270 kg
630700005262	Drunterfix o A 40 / 2400	0,320 kg
630700005263	Drunterfix o A 50 / 1680	0,340 kg
