

FB Shuttering Strip A-CV

Fibre-reinforced concrete spacer

The FB Shuttering Strip A-CV is a fibre concrete spacer with a reinforcement grid of 50 mm. It is the ideal complementary product for PENTAFLEX® and KUNEX® ABS formwork elements as well as unsealed formwork elements. The FB Shuttering Strip A-CV reliably reduces the amount of concrete leaking out and minimises the loss of fine particles. It can accommodate bar diameters from 6 to 14 mm and is available for concrete cover from 20 to 60 mm thick. This makes it the perfect installation aid for steel-bar reinforcements.
