

## FB Surface Spacer Square

Spacer with rectangular cross-section

The FB square surface spacers are linear spacers with a rectangular cross-section. They are used to maintain the required concrete cover in reinforced concrete components with heavy horizontal reinforcement. They are made of high-quality fibre-reinforced concrete and tested in accordance with the DBV fact sheet Spacers. These accessories are approx. 1000 mm long and require a concrete cover of 25 to 100 mm.
